

Vibcare Healthcare Private Limited

Starter respiratory, cold and cough range: 20 products

A first respiratory range for a marketing company, covering wet cough, dry cough, cold and fever, allergy, allergic rhinitis with asthma and bronchodilation, for adults and children. Every product is on the manufacturing licence of our WHO-GMP plant at Panchkula, Haryana, and is manufactured as syrups, drops, tablets or capsules under your brand.

Bronchodilation and COPD	Doxofylline 400 mg tablets; Acebrophylline 100 mg capsules; Acebrophylline 100 mg + Acetylcysteine 600 mg tablets

How to take this forward

Send this list, or your own, with pack sizes and annual quantity, and a written proposal comes back product by product covering rate, batch size, pack format, capacity, payment terms, lead time and documents. Delivery is 45 to 60 days from artwork finalisation, so artwork finalised in August puts the range in your depots by October. Every batch is released with a certificate of analysis.
